

Why Choose Halogená® Energy Saver Bulbs?

The new Halogená® Energy Saver bulbs reduce energy consumption without sacrificing the qualities of a traditional bulb. Now your customers can replace standard incandescent bulbs with the bright white, energy saving light of Halogená® Energy Saver to enhance their homes, while helping to preserve our energy resources.

They work with dimmer switches, and are available in familiar “A-shape” and floods, that fit into most fixtures.

- 30% energy savings*
- Bright, white light
- Fully dimmable
- Contains NO mercury
- Lasts 2 years†
- Instant-on
